March 30, 2011

RE: 4601-01; City of Crandall  
First Street Reconstruction  
**Residents Meeting for Information on the First Street Project**

Dear Property Owner:

The City of Crandall has hired Dannenbaum Engineering Company - Dallas, LLC. to perform surveying, geotechnical investigation and engineering improvements for the First Street project that was approved on the November 2, 2010 bond election ballot. This project is intended to widen the existing roadway from a one lane one way street to two lanes two way from Lewis Street to Trunk Street.

We are scheduling a public meeting on **Wednesday, April 13, 2011 at 7:00 p.m.** at the Crandall City Hall Council Chambers to discuss the improvements planned for this project. This meeting is intended for all residents who live along First Street and those within a 200' radius of connecting streets. Dannenbaum will bring plan sets for review, aerial views of the project site, and additional exhibits to help explain the intended improvements to First Street. This meeting will be an informal session of discussion of the project improvements by Dannenbaum followed by a Q&A session for residents to bring up their own comments and questions.

If you have any questions or concerns about the anticipated meeting, please feel free to call me at 972-239-2002.

Sincerely,

Krishna F. Brooks, P.E.  
Project Manager  
DANNENBAUM ENGINEERING COMPANY – DALLAS, LLC.
