

## Zoning Change Checklist Requirements

**Application:** Original completed application signed and notarized by the owner of the property. All documents on this checklist must be submitted electronically.

**Proof of Ownership:** Proof of ownership of the property will need to be provided. This could be closing documentation from purchasing the property or a copy of the deed to the property.

**Survey:** A copy of the property survey will be required.

**Legal Description of the property:** Documentation stating the legal metes and bounds of the property is required.

**Current Tax Certificate:** A current original tax certificate obtained from the Kaufman County Clerk's office will be required as proof that all taxes are current on the property.

**Application Fee:** The application fee for a zoning change request review is **\$400 plus \$3 per lot** that must receive the notice of publication

**Please refer to the attached Development Fee Schedule.**

**Public Hearing:** A public hearing will be scheduled prior to review by the City Council. The city will require 30 days from the date the application is considered complete to publish notices of the public hearing and mailing notices to landowners in the 200-foot buffer zone.

If you have any questions, please call 972-427-3771 and speak to the Planning & Zoning Department.

boundary of the planned development area, physical features of the site, existing streets, alleys, and easements, location of future public facilities, building heights and locations, parking ratios, and other information to adequately describe the proposed development and to provide data for approval which is used in drafting the final development plan. .... 192

c) Changes of detail which do not alter the basic relationship of the proposed development to adjacent property and which do not alter the uses permitted or increase the density, building height, or coverage of the site and which do not decrease the off-street parking ratio, reduce the yards provided at the boundary of the site, or significantly alter the landscape plans as indicated on the approved conceptual plan may be authorized by the City Manager. If an agreement cannot be reached regarding whether or not a change of detail conforms to the original concept plan, the City Council shall determine the conformity. .... 192

2) Development Plan: This plan shall set forth the final plans for development of the PD and shall conform to the data presented and approved on the conceptual plan. Approval of the development plan shall be the basis for issuance of a building permit. The development plan shall be acted on by the City Council, upon recommendation of the Commission. The development plan may be submitted for the total area or any section of the planned development. The development plan shall include: .... 193

a) A site inventory analysis including a scale drawing of existing vegetation, natural watercourses, creeks or bodies of water, and an analysis of planned changes in such natural features as a result of the development and including a delineation of any flood prone areas; ..... 193

b) A scale drawing showing any proposed public or private streets and alleys; building sites or lots; and areas reserved as parks, parkways, playgrounds, utility easements, school sites, street widening and street changes; sidewalks and trails; the points of ingress and egress from existing and proposed streets; general location and description of existing and proposed utility services, including size of water and sewer mains; the location and width for all curb cuts and the land area of all abutting sites and the zoning classification thereof on an accurate survey of the tract with the topographical contour interval of not more than five feet (5’); ..... 193

c) A site plan in accordance with SECTION 8N of this UDC; ..... 193

d) A landscape plan showing screening walls, ornamental planting, wooded areas, and trees to be planted; and 193

e) An architectural plan showing elevations and signage style to be used throughout the development. Any or all of the required information may be incorporated on a single drawing if such drawing is clear and can be evaluated by City staff, the Commission and the City Council. .... 193

(f) Criteria for Approval ..... 193

1) Whether the proposed PD implements and conforms to the policies of the adopted Comprehensive Plan;.. 193

2) Whether the proposed PD promotes the health, safety, and general welfare of the City and the safe, orderly, efficient and healthful development of the City;..... 193

3) Whether the uses permitted by the proposed change in zoning district classification and the standards applicable to such uses will be appropriate in the immediate area of the land to be reclassified; ..... 194

4) Whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers or other public services and utilities to the area; ..... 194

5) The extent to which the proposed PD will result in a more superior development than could be achieved through conventional zoning; ..... 194

6) Whether all of the applicant’s taxes owed to the City on the subject property have been paid in full (no application will receive final approval until all taxes due are paid in full); and..... 194

7) Whether other criteria are met which, at the discretion of the Commission and City Council, are deemed relevant and important in the consideration of the PD. .... 194

(g) Amendments..... 194

1) Corrections in spelling, distances and other labeling that do not affect the overall development concept; ... 194

2) Changes in building position or layout that are less than ten feet (10’) or ten percent (10%) of the total building project or area; ..... 194

3) Changes in proposed property lines as long as the original total project acreage is not exceeded, and the area of any base zoning district is not changed by more than five percent (5%); and ..... 194

4) Changes in parking layouts as long as the number of required spaces and general original design are maintained. .... 194

**F. INITIAL ZONING UPON ANNEXATION 194**

(1) Newly annexed property shall be deemed to be zoned Agricultural (“A”) until such a time that the property becomes zoned to another permanent zoning district. However, as soon as practical following annexation, but in no event more than one hundred and eighty (180) calendar days thereafter, the City Council shall, on its own motion or by property owners of the annexed area, initiate proceedings to formally and legislatively establish Agricultural District zoning on the newly

annexed territory, whereupon the City Manager shall commence public notification and other standard procedures for zoning amendments as set forth in this UDC. Said proceedings to establish zoning may be undertaken concurrently with annexation procedures (i.e., notified at the same time, public hearings scheduled at the same time as annexation, etc.); however, zoning approval and formal adoption of the ordinance establishing zoning must occur after annexation approval and adoption have occurred, and as a separate and distinct action by the City Council, after due consideration of the zoning request has been considered by the Commission. .... 194

(2) The initial zoning of a land parcel, whether it is interim in nature, by initiation of the landowner or by initiation of the City, must meet the requirements for notification and public hearings as set forth in this UDC and all other applicable State laws. .... 195

(3) The owner of land to be annexed may submit an application for zoning the property simultaneously with submission of the petition for annexation, but no such annexation application may be made conditioned upon the approval of any particular zoning classification. The Commission may consider the request for zoning and make a recommendation to the City Council prior to final adoption of the annexation ordinance. Any recommendation by the Commission shall be conditioned upon approval of the annexation of the property by the City Council. The City Council may act on an ordinance to establish the initial zoning of the property being annexed at the same meeting as the action on the annexation ordinance so long as final approval of the annexation ordinance occurs prior to final approval of the ordinance to establish the zoning and provided further that both the annexation of the property and the zoning of the property have been properly noticed pursuant to SECTION 4C of this UDC. .... 195

(4) Within an area classified as A-Agricultural: ..... 195

(a) No permit for the construction of a building or use of land shall be issued by the Building Official, other than a permit which will allow the construction of a building or use permitted in the Agricultural District, unless and until such territory has been classified in a zoning district other than the Agricultural District by the City Council in the manner prescribed in this UDC, except as provided in paragraph (b). .... 195

(b) If plans and preparations for developing a property for a use other than those specified in the Agricultural District were already in progress prior to annexation of the property into the City, then the City Council may, at its discretion, authorize construction of the project by a majority vote. Application of this subsection is contingent upon the following: ..... 195

1) An application for a building permit for the proposed building or use must be made to the Building Official within ninety (90) days after annexation of the property into the City; and ..... 195

2) The applicant must be able to demonstrate that plans and other preparations for developing the property commenced prior to (i.e., were already in progress at the time of) annexation into the City. .... 196

(c) In its deliberations concerning authorization to proceed with construction of a project which meets the above criteria, the City Council shall take into consideration the appropriate land use for the area as shown on the Comprehensive Plan. Upon approval by the City Council, the City Manager shall notify the Building Official of such approval. .... 196

**G. ZONING CHANGE/ZONING MAP AMENDMENT 196**

(1) Applicability ..... 196

(a) The City Council, from time to time, on its own motion, by request of the City Manager or by application from a property owner, may establish or amend the boundaries shown on the Official Zoning Map of the City. A zoning change or Zoning Map amendment is required to establish the use of land and the development associated with the proposed zoning classification for the purpose of establishing and maintaining sound, stable and desirable development within the City. .... 196

(b) Approval of a zoning change or Zoning Map amendment authorizes a property owner to submit subsequent development applications consistent with the amendment. .... 196
