H. PRELIMINARY PLAT PROCESS

(1) Applicability

- (a) The provisions of this section are authorized under LGC Chapter 212 and shall be applicable to all areas within the City's limits and throughout the City's ETJ. A preliminary plat is required to determine the general layout of the subdivision, the adequacy of public facilities needed to serve the intended development and the overall compliance of the land division with applicable requirements of this UDC.
- (b) A preliminary plat may be submitted for any phase of development consistent with an approved subdivision master plan. Where a subdivision master plan is not required and the area to be platted is part of a larger tract of land, the preliminary plat must encompass the entire tract of land under ownership of the subdivider and shall provide a preliminary layout of streets, lots, blocks, utilities and drainage for the larger tract. A final plat may be submitted for individual lots to be platted out of the larger parcel.

(2) Application Requirements

(a) Application Required

Any request for a preliminary plat shall be accompanied by an application prepared in accordance with the Development Standards.

(b) Accompanying Applications

An application for a preliminary plat may be accompanied by an application for a final plat for the entire area to be platted or for any portion of the proposed preliminary plat.

(3) Processing of Application and Decision

(a) Submittal

An application for a preliminary plat shall be submitted to the City Manager. The City Manager shall review the application for completeness in accordance with SECTION 4B(2) of this UDC. The City Manager shall forward a copy of the plat to other appropriate departments for review and recommendation. The City Manager shall notify the applicant of items requiring correction or attention before providing a recommendation on the application. After appropriate review, the City Manager shall forward a written recommendation to the Commission for consideration.

(b) Decision by the Planning and Zoning Commission

The Commission shall receive the written recommendation of the City Manager and shall consider the proposed preliminary plat. The Commission shall act on the plat within thirty (30) days after the date a complete application is filed. The Commission must approve a preliminary plat that is required to be prepared in accordance with this section and that satisfies all applicable regulations of this UDC. The Commission may vote to approve with conditions or deny a preliminary plat that does not satisfy all applicable regulations of this UDC. The applicant may appeal the decision of the Commission to the City Council for consideration. The City Council shall act on an appeal within thirty (30) days after the date of the Commission's action.

(c) Acceptance of Preliminary Plat

Approval of a preliminary plat by the Commission shall be deemed an expression of the approval of the layout submitted on the plat as a guide to the final design of streets, water, sewer and other required improvements and utilities and to the preparation of a final plat in accordance with the requirements of this UDC.

(4) Criteria for Approval

The Commission, in considering final action on a preliminary plat, should consider the following criteria:

- (a) The plat is consistent with all zoning requirements for the property or any approved development agreement;
- (b) The plat conforms to the general layout of the subdivision master plan (if applicable) and is consistent with the phasing plan approved therein;
- (c) The proposed provision and configuration of roads, water, wastewater, drainage and park facilities conform to the master facilities plans for the

facilities, including without limitation the water facilities, wastewater facilities, transportation, drainage and other master facilities plans;

- (d) The proposed provision and configuration of roads, water, wastewater, drainage and park facilities, and easements and rights-of-way are adequate to serve the subdivision; and
- (e) No application made under these provisions will receive final approval until all taxes owed to the City of Crandall on the subject property have been paid in full.

(5) Expiration and Extension

(a) Expiration

The approval of a preliminary plat shall remain in effect for a period of two (2) years from the date the application was approved or conditionally recommended by the Commission and approved by the City Council, during which period the applicant shall submit and receive approval for a final plat for any portion of the land subject to the preliminary plat. If a final plat has not been approved within the two (2)-year period, the preliminary plat approval, unless extended, shall expire and the plat shall be null and void.

(b) Extension

At the request of the property owners or their representative, the expiration date for approval of a preliminary plat may be extended by the Commission for a period not to exceed six (6) months. A preliminary plat is not subject to reinstatement following expiration.

(6) Revisions Following Approval of Preliminary Plat

(a) Minor Changes

Minor changes in the design of the subdivision subject to a preliminary plat may be incorporated in an application for approval of a final plat without the necessity of filing a new application for approval of a preliminary plat. Minor changes shall include adjustment in street or alley alignments, lengths, and paving details, and adjustment of lot lines that do not result in creation of additional lots, provided that such changes are consistent with any approved prior applications.

(b) Amendments

All other proposed changes to the design of the subdivision subject to an approved preliminary plat shall be deemed major amendments that require submittal and approval of a new application for approval of a preliminary plat before approval of a final plat. Approval of major revisions to an approved preliminary plat shall occur prior to the date any approved subdivision master plan would have expired for the same land.
